BUBBLE GHOST - ZX SPECTRUM 128K - cassette inlay (J-card). Print at 100% / actual size. Trim to the outer marks (206 x 101.6 mm), fold at the three inner marks.

A HAUNTINGLY DELICATE MISSION

You are a friendly ghost with one job: steer a fragile soap bubble through the 35 halls of a spooky castle. You can't touch it - only blow it along. Snuff out candles, dodge spikes, fans and fellow spooks, and puff your bubble to the exit before the bonus runs out.

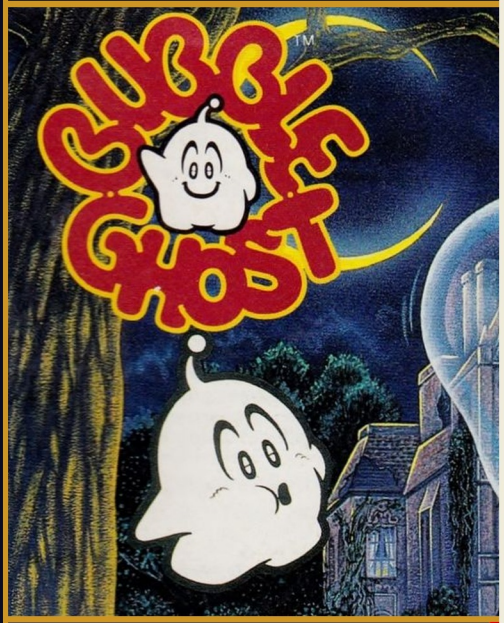

- **35 haunted halls**
- **Candles, fans, switches and traps to outwit**
- **Supports keyboard, Sinclair and Kempston**
- **128K AY soundtrack and effects**

Unofficial fan-made ZX Spectrum 128K conversion of the Game Boy game. Bubble Ghost (c)1990 FCI, (c)1990 Pony Canyon Inc., (c)1989,1990 Infogrames.

BUBBLE GHOST

ZX SPECTRUM 128K

ZX SPECTRUM 128K

BLOW THE BUBBLE TO SAFETY!

HOW TO PLAY

Blow the bubble from the entrance to the exit of each hall. Anything sharp or hot bursts it and costs you a ghost. Blow on switches, candles and fans to change the room; finish quickly to keep your BONUS.

CONTROLS

- Move: Q A O P - Blow: SPACE or M
- Sinclair 1 (6-0), Sinclair 2 (1-5) or Kempston joystick
- ENTER start/pause - R retry hall - N new game

CHEATS

- Z infinite lives on/off
- X bubble protection on/off
- C skip to the next hall

LOADING

128K, +2, +2A or +3 only. Choose Tape Loader (Loader on +2A/+3), press ENTER and play the tape. Do not use 48 BASIC.

TIPS

- Use short puffs and never hold blow, even on a straight: you control distance and speed far better.
- Pause (ENTER) as each hall begins and study the obstacles, traps and bonus paths first.
- Blow too long and your ghost turns red in the face and loses bonus points.
- The ghost passes safely through walls and objects; the bubble pops on contact.
- Blow out candles, flip switches and move objects out of the bubble's path.
- The closer you are, the stronger the push. Back off for gentle nudges.
- Look for secret exits that skip the most brutal halls.

Panels left to right: back flap 64 mm - spine 13 mm - front 65 mm - inside flap 64 mm (instructions; fold behind the front).
